Jl. Mulyosari Utara VI, No.22, Mulyorejo, Surabaya, Jawa Timur

Computer Engineering student with experience in website development, UI/UX design, and IoT. Passionate about building practical, user-focused solutions and applying technology to support business-driven innovation.

Education Level

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia Aug 2024 - Aug 2028 (Expected)
Undergraduate in Computer Engineering, 3.67/4.00

- Activities and Societies: TPKH ITS, MAGE, GDGoC ITS, TDC ITS
- Relevant Coursework in Advanced Programing and Linear Algebra

SMA Negeri 4 Denpasar - Denpasar, Indonesia Jul 2021 - Jul 2024
High School Diploma in Science (Engineering Specialization), 89.45/100.00

- Activities and societies Foursma Computer Club (Programing Division).
 - Gold Medal and Best Booth Award in I2ASPO IYSA (2023)
 - 3rd Place IoT Competition PNB (2023)
- Relevant coursework in IoT Programming and UI/UX Design.

Project Experience

RANUJA (Roket Nusantara Jelajah) Oct 2023 - Dec 2023
Software Engineer | C#, C++, ESP32

- Designed an informative dashboard application using Windows Forms (.NET) to monitor and display system data in real time.
- Integrated microcontroller data with the desktop application for real-time visualization and monitoring.
- Conducted system testing and debugging to ensure reliable communication and data accuracy during operation.

Galaxium - 2D Retro Arcade Space Shooter Game Prototype Aug 2024 - Oct 2024
Game Developer & Designer | C++, OPP, SFML 3.0

- Developed a 2D retro arcade space shooter game prototype focusing on core gameplay mechanics.
- Designed and implemented basic game flow, scoring system, player movement, collision detection logic, and difficulty progression.
- Conducted iterative testing and debugging to improve game stability and gameplay balance.

Google Maps Lite - Shortest Path Navigation System Sep 2025 - Nov 2025
Software Developer | Python, Graph Algorithm

- Implemented Dijkstra's algorithm in Python to calculate optimal paths based on graph representations.
- Modeled map data as graph structures consisting of nodes and weighted edges to represent real-world locations, distances, and connectivity between routes.
- Tested and validated algorithm correctness using multiple route scenarios.

Organizational Experience

TPKH ITS Feb 2025 - Jan 2026
Internal Departement Secretary

- Prepared and maintained departmental accountability and financial reports in accordance with approved budgets.
- Tracked financial transactions and organized supporting documentation to ensure accuracy and compliance.
- Coordinated internal administrative processes, including preparing official correspondence and documentation.
- Managed departmental records and communication to support smooth operational workflows.

Additional Information

- **Technical Skills:** C, C++, Python, HTML, Javascript, ReactJS, TailwindCSS, SQL, Google Cloud Platform, Arduino IDE, Blender 3D, Figma.
- **Soft Skills:** Problem Solving, Teamwork, Time Management, Adaptability.
- **Interest:** Interested in Cloud computing, Data Science, Computer vision, IoT applications, and Machine learning.
- **Languages:** Indonesian, English.
- **Certifications:** BNSP Young Multimedia Designer, Google Cybersecurity Profesional Certificate, Dicoding Machine Learning for Begineer, HackerRank Python (Basic), Dicoding Python (Begineer).
- **Awards/Activities:** Gold Medal Applied Science Competition IYSA (2023), 3rd Place IoT Competition PNB (2023), Semifinalist Business Plan Competition BEM UI (2023), Gold Medal Computer Olympiad Liga Olimpiade (2022).
